FOR IMMEDIATE RELEASE

DAVID WINTER, PE, REJOINS HART CROWSER

Seattle, WA (May 2010). David Winter, a geotechnical engineer with 29 years of experience, has rejoined Hart Crowser. He previously worked for 19 years at Hart Crowser. Winter will oversee geotechnical design for waterfront facilities, buildings, international developments, and other major facilities. He has been responsible for nearly 40 deep excavation and high rise building developments; multi-state federal environmental contracts; remote site logistics for exploration and cleanup; and projects in Malaysia, Saudi Arabia, United Arab Emirates, and Brazil. A LEED accredited professional, Winter is also a Fellow in the Society of American Military Engineers, and a member of the Missouri University of Science and Technology Academy of Civil Engineers. He holds a Master of Science in Civil Engineering and is a graduate of the American Council of Engineering Companies (ACEC) Senior Executives Institute.

Hart Crowser is a 75-person, employee-owned environmental and engineering consulting firm headquartered in Seattle, with offices in Edmonds, Washington, and Portland, Oregon. The firm specializes in environmental and geotechnical engineering, natural resources, and environmental remediation technologies. Corporate offices are located at 1700 Westlake Avenue North, Suite 200, Seattle, Washington 98109; telephone (206) 324-9530 and fax (206) 328-5581. Visit the firm's website at www.hartcrowser.com for more information.
