HART CROWSER NEW HIRES

(December 5, 2018) Hart Crowser has four new staff members.

Seattle

Nathan Jones, geotechnical engineer, has an MEng in civil engineering from Oregon State University. He has worked for the Federal Highway Administration and the Bureau of Land Management, and is a member of the American Society of Civil Engineers (ASCE). At Hart Crowser he will support building and transportation projects.

Ryan Sullivan-Johnson, geologist, has a BS in geosciences from Pacific Lutheran University. He is a member of the Association of Environmental and Engineering Geologists (AEG), Northwest Geological Society (NWGS) and Geological Society of America (GSA). At Hart Crowser he will support building and transportation projects as well habitat restoration.

Evin Fairchild joined as CAD Drafter. He has an Associate in Applied Science in Civil Design Technology from the Lake Washington Institute of Technology.

Portland

Alayna Martin, marketing coordinator, has joined the Portland office. She has a BA in communications from Linfield College and has experience in administrative support and digital marketing. She will provide proposal and marketing support for geotechnical engineering, environmental services, and natural resource services companywide.

Hart Crowser is an employee-owned engineering, science, and consulting firm headquartered in Seattle, with nine offices in Washington, Oregon, Hawaii, and Alaska. The firm specializes in geotechnical engineering, environmental science and engineering, stormwater services, and disaster resilience.
